Much of the data sharing, business updates and planning of CSPN happens in our Committees. Calls are usually once a month, an hour or less, and focus on news and current topics affecting our 529 plans and community. Both state agency and corporate affiliate members are welcome to participate or listen in. Share your expertise with others, expand your knowledge in a new area, and help shape the future of 529. The calls are also a great way to meet people to add to your professional network. You can participate in more than one — many of us do!
